Seguetas Bimetálicas

Las seguetas Cle-Line cuentan con dientes fabricados en acero alta velocidad con un 8% de Cobalto que mejora la resistencia al calor que se genera durante el corte, puede ser utilizada para cortar metales, madera y plásticos.

Son sumamente resistentes ya que pueden doblarse sin romperse por su cuerpo flexible, con 24 dientes para corte fino y 18 dientes para cortes rápidos, pueden usarse para arco de 12”.

- Son sumamente resistentes ya que pueden doblarse sin romperse por su cuerpo flexible
- Dientes afilados para alta velocidad de corte
- Dientes fabricados en acero alta velocidad al Cobalto
